

2023 ANNUAL SCIENTIFIC MEETING EXHIBITORS

EXHIBITOR SCHEDULE:

Room: Pacific Jewel B

Fri., June 16: 7 am – 4 pm PT

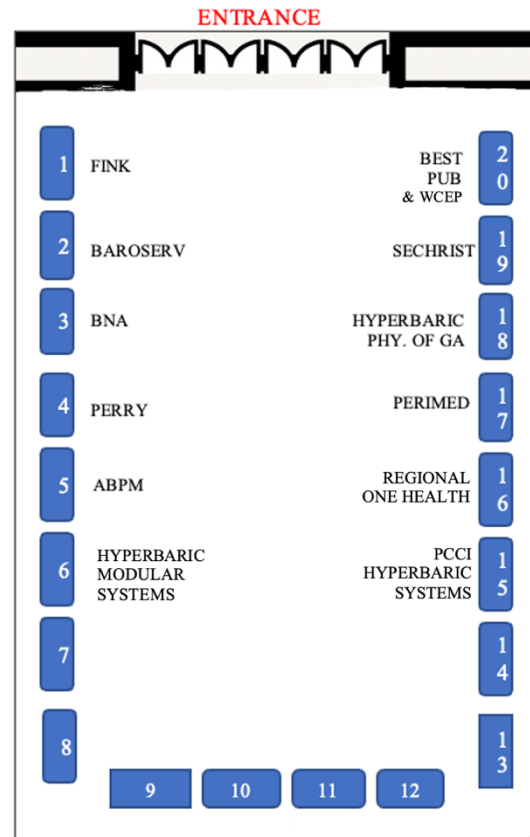

- 7 am - 8 am: Coffee/Exhibits
- 9:30 - 10 am: AM Coffee Break/Exhibits
- 12 pm - 2 pm: Lunch on own
- 3:30 pm - 4 pm: PM Coffee-Snack Break/Exhibit
- 6 pm – 7 pm: Welcome Reception with Exhibitors

Sat., June 17: 7 am – 4 pm PT

- 7 - 8 am: Coffee/Exhibits
- 10 - 10:30 am: AM Coffee Break/Exhibits
- 12:00-2:00 pm: Lunch on own
- 3:30 - 4 pm: PM Coffee-Snack Break/Exhibits

Sun., June 18: 7 am – 12 pm PT

- 7 - 8 am: Coffee / Exhibits
- 10 am - 10:30 am: AM Coffee Break/Exhibits
- 12 pm: Break down begins (out by 4 pm)

EXHIBITORS

AMERICAN BOARD OF PREVENTIVE MEDICINE

TABLE 5

111 West Jackson Boulevard, Suite 1408, Chicago, IL

Email: abpm@theabpm.org

Website: <https://www.theabpm.org/>

The American Board of Preventive Medicine was established to promote the health and safety of the American people through our high standards in the certification and maintenance of certification in the profession of preventive health.

BAROMEDICAL NURSES ASSOCIATION

TABLE 3

P O Box 53 Gotha, FL 34734

Email: baromedicalnurses@gmail.com

Website: <https://hyperbaricnurses.org/>

The BNA was established in June 1985 to provide registered nurses practicing in hyperbaric medicine a formal organization within which nurses can develop a network and provide [professional support](#). This organization has grown and expanded outside the boundaries of the United States. Today, the BNA has members in Europe, Asia, South and Central America and the South Pacific. The BNA remains dedicated to offering educational opportunities, support of nursing research efforts, a presence on Committees and Boards of national organizations, to having a public voice in those issues which impact nursing, and to provide opportunities for networking and information exchange.

BAROSERV-FREEDOM HYPERBARIC SYSTEMS, LLC

TABLE 2

1645 W Valencia Rd, Suite 109-109, Tucson, Arizona, US 85746

Websites: <https://bestpub.com/> / <https://woundeducationpartners.com/>

Best Publishing Company was founded in 1966 and has become the largest and the most respected publishers of educational books on diving, wound care, and hyperbaric medicine. We produce educational books along with professional periodicals such as the Wound Care & Hyperbaric Medicine Magazine, the industry's only free online quarterly publication covering all aspects of wound care, diving medicine, and hyperbaric medicine.

Our Mission is to publish educational books on all aspects of diving, wound care, and hyperbaric medicine. This includes books that are current and innovative, and most importantly, books that will help to promote medical education and diving safety throughout the world.

We distribute our titles to government agencies, hospitals, physicians, libraries, universities, bookstores, commercial dive organizations, sport divers, dive shops, museums, aquariums, and hyperbaric chamber operators around the world.

Our authors are very important to us, and we enjoy promoting their knowledge and vision through their writing. Our team of editors and graphic designers take pride in producing works with our customers' needs in mind.

In 2014 Best Publishing Company joined WCHMedia Group which houses our sister company and education division, [Wound Care Education Partners](#).

Wound Care Education Partners: We're about science-based, outcomes-driven practice of wound care and hyperbaric medicine, at a rate you can afford. There is nothing more powerful than a medical provider who has an understated yet absolute confidence in their patient interactions. True confidence in practice comes from a thorough understanding of how, why, and when to treat a patient. Most education companies want you to buy their program at an exorbitant rate and provide you with little support and no human interaction along the way. So, you leave with the CME credits, but no real understanding of how to translate what you learned in class to a real-life clinical practice setting. So how can you have confidence when seeing a patient? Instead, all our faculty and instructors are active practitioners (or recently retired) in their fields of expertise, not just full-time educators. We understand what it's like to be on the front lines, having to make tough decisions, and treat patients every day. Here you'll learn clinical practice of wound care and hyperbaric medicine through case-studies, real-life examples, and evidence-based science from practicing healthcare professionals, who are on the front lines every day, just like you.

FINK ENGINEERING PTY, LTD.

TABLE 1

14 Premier Circuit, Warana QLD 4575, Australia

Phone: + 61 7 5438 4900

Email: fink@fink.com.au

Website: <https://www.fink.com.au/>

Fink Engineering based in Queensland, Australia combines an innovative design approach with state-of-the-art engineering and fabrication facilities to redefine the form and function of medical hyperbaric chambers.

Fink Engineering (FE) pioneered the design and development of the rectangular shape for hyperbaric chambers back in 1994 and were the first company internationally to design such a chamber (for the Royal Adelaide Hospital) which has been used effectively ever since. We recognized early on that this shape would ultimately become the standard for all future medical hyperbaric treatment facilities simply because of its user-friendly design if indeed we could build them cost effectively. Our track record proves that we have successfully achieved this goal with our chambers now operating not only in Australia but also in the USA, Canada, Singapore, New Zealand and the Middle East and soon to be in Europe.

HYPERBARIC MODULAR SYSTEMS

TABLE 6

1663 Pacific Rim Ct, San Diego, CA 92154

Phone: 619-336-2022

Email: help@hmschambers.com

Website: www.hmschambers.com

For reliable solutions to your specific needs in clinical hyperbaric oxygen therapy (HBOT), HMS offers extensive experience designing, manufacturing, installing, and maintain various sizes and configurations of clinical HBOT systems, diving systems and simulators, research incubators and compressed air work (CAW) systems used in tunneling construction projects worldwide. Thank you for visiting our website and we look forward to working with you and ultimately delivering a system that is reliable, cost-effective, and designed to meeting your specific goals and objectives. You can rely on our decades of professional experience and accolades in past performances where HMS chambers are used 24/7/365 in hospitals and medical center, trauma and burn centers, research institutions, and outpatient wound healing and hyperbaric medicine centers around the world.

HYPERBARIC PHYSICIANS OF GEORGIA

TABLE 18

1341 Canton Rd., Suite A, Marietta, GA 30066

Phone: 770-422-0517

Email: info@hbomdga.com

Website: <https://hbomdga.com/>

Hyperbaric Physicians of Georgia is at the cutting edge of emerging clinical applications of hyperbaric oxygen therapy. Together, we provide both the highest level of service possible as well as the most innovative approaches to healing.

PCCI HYPERBARIC SYSTEMS

TABLE 15

300 North Lee Street Suite 201, Alexandria, VA 22314

Phone: 703-861-8535

Email: <https://www.pccihyperbarics.com/contact-us>

Website: <https://www.pccihyperbarics.com/>

PCCI Hyperbaric Systems is a division of PCCI, Inc. solely dedicated to the design, engineering, fabrication, installation, maintenance and repair of hyperbaric chambers (using either oxygen or air), hypobaric chambers, breathing simulators, medical airlocks for Tunnel Boring Machines (TBM), medical air locks, manlocks and related systems for commercial and Government clients. PCCI Hyperbaric Systems division was established to serve the hyperbaric industry by acquiring the assets of Reimers Systems, Inc. and combining it with PCCI's existing hyperbaric systems experience supporting the U.S. Navy. This combined entity provides over 45 years of hyperbaric/hypobaric chambers design, fabrication, installation, and maintenance experience on over 200 monoplace and multiplace chambers.

Our Mission is to exceed industry standards, place occupant safety as our highest priority, demonstrate commitment to best practices, and build upon our globally recognized quality and value in the products and support systems we produce.

PERIMED

TABLE 17

7485 W Azure Drive, Suite 126, Las Vegas, NV 89130

Phone: +1 702 987 4655

Email: USAinfo@perimed-instruments.com

Website: <https://perimed-instruments.com>

Perimed's vision is "to provide instruments for accurate diagnosis and monitoring of all patients with ischemia in order to save limbs, lives, costs and reduce human suffering."

Perimed AB is a Swedish company, founded in 1981 and headquartered just outside Stockholm, that develops, manufactures and markets state-of-the-art diagnostic equipment to assess microcirculation and peripheral perfusion as well as [peripheral arterial disease](#).

We offer solutions for clinical use as well as for research. We have more than 40 years of experience and unique competence in fiber optics, laser, and camera optics, as well as tissue optics making Perimed a leader in measuring and assessing microcirculation and peripheral macro circulation.

Our clinical tools will help you with high quality examination of Ischemia and assessment of wound healing potential for your patients. Our advanced research tools will help you obtain valuable and actionable results for both clinical research and research.

Perimed is a global company with subsidiaries in USA, China, France, Italy, and Germany. Our customers in the other countries are supported either directly from our Swedish headquarters or by our certified local distributors listed on our [contacts](#) pages.

To deepen our understanding of diseases related to blood perfusion and microvascular functions, Perimed actively participates with leading universities in a wide range of research projects. The knowledge acquired through these projects is continuously re-invested in further product development.

PERRY BAROMEDICAL

TABLE 4

3750 Prospect Ave, Riviera Beach, Florida 33404 USA
Phone: 561-840-0395
Sales Toll free: 800-741-4376
Email: Customersupport@perryhbo.com
Website: <https://perrybaromedical.com/>

Perry Baromedical is a registered medical device manufacturer. Perry Baromedical is an ISO 13485:2016 certified world leader in the manufacture, installation, and service of hyperbaric oxygen therapy systems for medical application. Hyperbaric Oxygen Chambers are United States Food and Drug Administration (FDA) Class II devices and are controlled by federal law. All systems are designed, manufactured, tested, and installed in accordance with the current regulations of the FDA, The American Society of Mechanical Engineers (ASME/PVHO-2) Codes, The Pressure Equipment Directive (CE Mark), Medical Device Directive (CE Mark) and the requirements of the National Fire Protection Agency (NFPA).

REGIONAL ONE HEALTH WOUND CARE CENTER

TABLE 16

890 Madison Ave, Memphis, TN 38103
Phone: 901-545-8999

Sometimes wounds refuse to heal despite regular treatment.

Physically, this can lead to declining health and risk of infection, disability and even amputation. Emotionally, it can be disheartening and frightening. At the Regional One Health Wound Care Center, expert medical care and state-of-the-art technology provide new hope for patients with stubborn and persistent wounds.

As the regional referral center for the Mid-South, we are a recognized leader in inpatient and outpatient wound treatment. We also realize that healing of clinically complex wounds is based on additional factors like proper nutrition, removal of social barriers, and managing chronic and acute medical conditions. By treating the whole person, not just the wound, we achieve exceptional outcomes for a variety of acute, chronic and non-healing wounds.

SECHRIST INDUSTRIES

TABLE 19

4225 E. La Palma Ave., Anaheim, CA 92807
1-800-SECHRIST (800-732-4747)
Phone: 714-579-8400
Email: info@sechristusa.com
Website: <https://www.sechristusa.com/>

World Leader in Hyperbaric and Respiratory Medicine since 1973

Sechrist is a team of dedicated professionals whose purpose is to identify, develop and sustain a worldwide competitive offering of high-quality technology solutions to the healthcare community.

We identify and fulfill healthcare opportunities that will improve the quality of patient care, add convenience and efficiency for the practitioner, and provide high quality and cost-effective technology applications that result in a positive return on investment.

Our team has been building hyperbaric chambers and respiratory products since 1973. The experience our team brings is unsurpassed – many of our team members have been with Sechrist for over 20 years. From the start, we have been customer-driven and have operated with a core set of values that define who we are and how we want to be known. These quality-driven values form the foundation of our business and establish a solid presence the world recognizes as Sechrist Industries.
